

AGILITY

A Xerox digital copier/printer can keep you on top of your game. No matter how varied the print specs, tight the budget, or crushing the deadline.

There's a new way to look at it.

Can your copier/printers turn on a dime and deliver? Xerox digital copier/printers do it everyday in dynamic in-house organizations just like yours. Their ability to handle a variety of projects makes them perfect for high volume, print-on-demand settings. For example, the Xerox Nuvera 100/120 C/P has robust printing and finishing features that easily handle customized printing needs. Nuvera is designed to support the custom

applications you produce. For fast turnaround and quality low-cost printing, the Xerox 4110 or 4590 C/P can handle the most jobs unattended with speed and dexterity. 8,225 sheet capacity translates to hours of uninterrupted output. Print jobs may even be submitted over the Web. The result? Incredible cost efficiency without sacrificing print quality or missing deadlines. To learn more, contact us. We've got all the right moves.
